

SPEC Statement on COVID-19

As we all face this difficult challenge, I wanted to share our approach to addressing the issues presented to us in the current pandemic.

Of course, our first responsibility is for the safety of our team and the many people that work with us. To that end, we have instituted a series of strict protocols for our staff that will allow people to work from home and limit their contact with others as much as possible. Our construction sites are being run with smaller work crews and we are arranging our work to limit contact between workers. We are also requiring any of our staff that have travelled out of our area to self-isolate for a period of 14 days.

In addition to safety, we also feel a strong responsibility to our clients and their business goals. Our goal is to continue every project in a safe and judicious manner. We will work with our clients, our subcontractors our suppliers and our internal team to make sure this happens. This may take much extra effort, longer hours and careful planning, but we are willing to do whatever is necessary.

If you would like a detailed statement of our measures, or have other questions or concerns, please contact us.
